## Background and Introduction

This report compiles data from the Census 2000 Special Equal Employment Opportunity (EEO) Tabulation for counties in the Pittsburgh Metropolitan Statistical Area (Metro SA)<sup>1</sup>. The Census 2000 Special EEO Tabulation presents data on race and ethnicity cross-tabulated by other variables such as detailed occupations, occupational groups, sex, worksite geography, residence geography, education, age, and industry. Data in this report are presented for two sub-regions of the Pittsburgh Metro SA: Allegheny County separately and the combined six counties that comprise the remainder of the Metro SA: Armstrong, Beaver, Butler, Fayette, Washington, and Westmoreland.

The Census Bureau collected EEO data for a consortium of four Federal agencies, including the Equal Employment Opportunity Commission (EEOC), the Department of Justice (DOJ), the Department of Labor (DOL), and the Office of Personnel Management (OPM). The Census 2000 Special EEO Tabulation serves as the primary external benchmark for comparing the race, ethnicity, and sex composition of an organization's internal workforce, and the analogous external labor market, within a specified geography and job category.

Presented in this report is employment data by race, occupation and gender compiled by the place of work for individual workers at the time of the 2000 Census. This differs from employment data compiled by place of residence due to commuting patterns. The full EEO Special Tabulation includes separate compilations of employment data compiled by place of residence for most regions of the country. Employment compiled by place of residence for workers in the Pittsburgh Metro SA is one of seven regional datasets excluded from the EEO Special Tabulation because of confidentiality restrictions.

**Figure 1. Counties of the Pittsburgh Metropolitan Statistical Area**

This report includes both occupational employment patterns by major EEO occupation groups and detail data based on the Census 2000 Occupational Classification System. The EEO occupation groups are 14 summary groups of related occupations that are adapted from, but are not identical to, the major groups assigned by the Standard Occupational Classification (SOC) System. The Census 2000 Occupational Classification System consists of 509 detailed categories, including four for military specific occupations. Occupations are classified based on the work performed and the skills, education training and credentials required.

The full EEO Special Tabulation data files include more detailed data than is presented here.<sup>2</sup> The Census has compiled occupational EEO data based on other classifications of jobs, including OPM occupational categories and nine EEO-1 job categories. Also available is employment by level of educational attainment.

<sup>1</sup> The abbreviation "Metro SA" is adopted here representing the term *Metropolitan Statistical Area* instead of the abbreviation "MSA" used in the past. This is to avoid confusion with a new geographic classification introduced by the Office of Management and Budget in 2003 called *Micropolitan Statistical Area*.

<sup>2</sup> More information on the Special EEO Tabulation is available on the Census 2000 Equal Employment Opportunity (EEO) file homepage online at: <http://www.census.gov/hhes/www/eeoindex/eeoindex.html>

## Employment Summary by EEO Occupation Group

EEO occupation groups are a set of 14 aggregate groupings of occupations that are adapted from the 23 major groups in the 2000 Standard Occupational Classification (SOC) System used by Federal statistical agencies to classify workers for the purpose of collecting, calculating or disseminating data. These occupation groups provide broad comparisons of employment patterns within a region.

Table 1 compiles employment by race and ethnicity in each of the EEO Occupational Groups for Allegheny County and separately for the combined suburban counties of the Pittsburgh Metro SA. Tables 2 and 3 compile comparable data for each of the EEO Occupational Groups separately for women and men respectively. Figure 2 ranks each of the EEO Occupation Groups by the concentration of African American workers. Figures 3 ranks the concentration of African American workers within EEO Occupation Groups for women while figure 4 compiles comparable data for men.

In Allegheny County the two EEO Occupation Groups that employed the largest number of African Americans in 2000 were *Service Workers, except Protective* with 12,761 African American workers, and *Administrative Support Workers* with 12,279 African American workers. The EEO Occupation Group *Protective Service Workers* had the highest proportion (16.5%) of workers made up of African Americans in 2000. The EEO Occupation Groups with the lowest number of African American workers in Allegheny County were *Construction and Extractive Craft Workers* with 924 total African American workers and *Science, Engineering and Computer Professionals* with a total of 1,157 African American workers. These two EEO Occupation Groups also had the lowest proportion of African American workers, 3.4% and 3.0% respectively, of total employment among EEO Occupation Groups.

For the remainder of the Pittsburgh Metro SA the EEO Occupation Groups with the largest number of African American workers are similarly: *Service Workers, except Protective* with 2,020 African American workers, and *Administrative Support Workers* with 1,516 African American workers. In 2000 the largest concentration of African American workers was in *Protective Service Workers* with African American workers comprising 4.9% of total employment. The EEO Occupation Groups with the lowest number of African American workers in the suburban counties of the Pittsburgh Metro SA are *Construction and Extractive Craft Workers* and *Science* with 218 African American workers and, *Engineering and Computer Professionals* with a total of 165 African American workers. The EEO Occupation Group *Installation, Maintenance and Repair Craft Workers* had the lowest proportion of African American workers (0.9%) of total employment among all EEO Occupation Groups.

Tables 1-3 include employment data for other races and Hispanic workers. The EEO dataset has detailed data for multiple race groups. Here data for all other race groups including multi-racial workers are combined into one category. In Allegheny County the proportion of employment for other race workers was highest for the EEO Occupation Group *Health Care Practitioners* with 4.8% of all employees in 2000. Also included in these tables is a breakdown of Hispanic workers by occupation. The percentage of Hispanic workers in the Pittsburgh Region is low across all occupations. The proportion of Hispanic workers in Allegheny County ranges from 0.4% to 1.1% across occupations. In the remainder of the Pittsburgh Metro SA, Hispanic workers make up similarly low proportions of all occupations ranging from 0.2% to 0.9% of all workers.

## Employment by Detail Census Occupation Category

The EEO Special Tabulation includes data on employment patterns by race, gender and ethnicity for specific occupations. Presented here is data for occupations defined by a modified version of the Census 2000 Occupational Classification System.

Table 4 lists the detailed occupation categories with the largest number of African American workers for Allegheny County and separately for the remainder of the Pittsburgh Metro SA. Results are limited to occupation categories which have 500 or more workers within either of the sub-regions. In Allegheny County the two occupation categories that employed the largest number of African Americans in 2000 were *Nursing, Psychiatric, and Home Health Aides* with 2,588 African American workers, along with *Janitors and Building Cleaners* with 1,893 African American workers. For the remainder of the Pittsburgh Metro SA the same occupations employed the largest number of African American workers: *Nursing, Psychiatric, and Home Health Aides* with 595 African American workers, and *Janitors and Building Cleaners* with 303 African American workers.

Table 5 lists the detailed occupation categories with the largest proportion of African American workers for Allegheny County and separately for remainder of the Pittsburgh Metro SA. Again, results are limited to occupational categories with 500 or more workers within either of the two sub-regions. In Allegheny County the occupations that employed the highest percentage of African American workers in 2000 was *Miscellaneous Community and Social Service Specialists* where 33.9% of all workers are African American. For the remainder of the Pittsburgh Metro SA the occupation category with the largest proportion of African American workers was *Laundry and Dry-Cleaning Workers*, with African Americans comprising 8.1% of all workers.

Tables 6 and 7 compile employment data for detailed occupation categories with the largest number and the largest concentrations of African American workers separately for men. Tables 8 and 9 compile comparable information for women.

Tables 10 compiles employment data for all detailed occupation categories for Allegheny County and table 11 repeats this information for the remainder of the Pittsburgh Metro SA. There are 509 EEO detail occupation categories, including four for military specific occupations. Because of concerns that the cross-classification of small occupations with demographic characteristics, such as race, ethnicity, and gender, might lead to the disclosure of information about individual respondents in the Census, the Census Bureau decided not to publish any data for occupations with fewer than 10,000 people coded to those categories nationwide. For the Census 2000 Special EEO Tabulation; therefore, the detailed occupation categories exclude 35 occupation categories that fell below the 10,000 threshold and the four military occupations, and adds one more category for the unemployed with no work experience since 1995. The 35 small categories are combined with each other and with larger categories, as shown in Tables 10 and 11, for a total of 472 reported categories. Data compiled by worksite, which is the data presented here, excludes the unemployment category which leaves 471 individual categories. Also presented is the Standard Occupational Classification (SOC) equivalents for each occupation category. When a Census code does not have a single matching SOC equivalent, the SOC code shown may contain alphabetic characters, such as "13-11XX."

**Table 4. Occupations Employing Largest Number of African American Workers**  
Occupations with 500 Workers or More

Detailed Census Occupation Category	Total Workers	African American #	African American %
<b>Allegheny County</b>			
1) Nursing, Psychiatric, and Home Health Aides	9,116	2,588	28.4%
